The Only thing that I would like to address in the act would be to add Quality of life for Youthful Workers on Long Term Disability with WCB.

Especially, if the youthful worker suffered a life altering injury (Quad, Para, Amputation of limb so on...) quality of life is very important, how does one accept an injury/ disability if the WCB doesn't even include quality of life when making a decision that will affect this clients life(whom sustained an injury under the youthful worker act).

The act should include at the least a section that would be representative of Long term clients under 28 years old (as a date of accident) that have sustained a major injury, the WCB should consider quality of life.

I'd be willing to provide examples of personal experiences and years of knowledge I have as a long term client of the WCB. I have also worked for Worker Advisor Office and the WCB Case Worker as a placement.

Please feel free to contact me!
