Email: [REDACTED]

Input:

Please see the attached file. It is entitled Greetings.docx. It is about my personal journey with WCB and how they have carefully hand picked those that they help and thrown the rest of us under the bus, so to speak. I know that WCB needs a complete overhaul so that it helps those that have been injured at work, especially if they cannot return to their jobs, a life that is not a constant battle between having a life and losing everything and having no quality of life due to these snap decisions made by people that have no idea of some of the conditions they are dealing with. Please feel free to contact me for further information, should you so desire.

Thank you,
