Input: My name is [REDACTED] and i was injured in Manitoba in April of 1998. I lost my right leg in a train accident. For the last 18 yrs i have suffered greatly from this injury, ie blisters, phantom pain, numbness and many, many trips to Fredericton for revisions to my prosthetic. The physical and psychological affects remain even after all this time. So my input would be for the act to allow for pain and suffering as other provinces do. Even if the act specified certain injuries whose affects continue long after the original injury. claim # [REDACTED]
