Input: the premiums are too costly when added to costumers billings thus making work for living difficult to get work. compensation is a new industry, where will it get the money to operate? too much red tape involved, its the greed for money when people get hurt you of people should know. people working at a doughnut shop with 2 children must live in a home /rent 1200 or must buy a house 250.000, who is going to compensata these people. poor debt slaves, [ keeping the people poor and ignorant are easy to control] with fear of losing. it is good that things are kept in order but why take advantage of people. the streets in Winnipeg for one are not safe to drive on due to half dun work repairs with ruts that cars bottom out on and pot holes where cars are too expensive to repair [ just happens ] how many billions of dollars in auto repairs each year could be avoided [why would you want to finish repairing the streets with that much monies involved] keep them afraid and they will shut up. High labor prices, high operating prices, high taxes, high income taxes is nothing more than epoxy cement mix waiting to harden that is NO GROWTH socialist dictatorial system.
